TIFAMA THERMON (P) LTD. Company was established in 1998 by forefather manufacturing and fabricating cooking utility (Big tava riveting) and safe Tijory cupboard, water fetching rets from well, agricultural utilities, casting, misc.... Now a days with latest Technology all types of forged and fabricated Materials serving to Engineering Industries like Petro-Chemical, Fertilizers, Power Generation, Sugar, Paper, Process, Chemicals, Ship Building Industries etc. Our company has established itself as quality products supplier with prompt & courteous services of course at a competitive price came into existence with a mission to offer manufacture and supply of all types of forged and fabricated parts, specialized designed parts, stud, hanger, etc. pipe fittings, vessels, heat exchanger, also cryogenic, precision and designed part, production lines and devices, design and manufacture and JOB WORK for power tools and CNC, VMC machined or assembled parts products works like general fabrication, structural fabrication, heavy structural fabrication, storage tank, boilers, vessels, pharmaceutical components, precision components & machinery works. Amidst severe competition, we strived and guided our organization to a relatively safe position by emphasizing satisfactory service availability to our clients. Owing to the quality, our products considerably generate tremendous applause from our clients. We have succeeded in making imprints on our clients thereby facilitating progressive market skimming and corporate expansion.

We have flexible solutions for your business needs total end to end solution, fabrication needs, time constraints, and strategy for successfully completing your project with minimal production loss. Here, we give you the basics and then we give you more.

## Flexible solutions for your business needs

## ALL YOUR INDUSTRIAL DEVELOPMENT DESIGN NEED

Your Custom Fabricator of Mild Steel, Stainless Steel, Alloy steel, Aluminium, Abrasion Resistant, and Alloy Materials. Industrial Fabrication Experience of Custom Fabrication and Manufacturing

## QUALITY ASSURANCE

We are known for using sophisticated technology, to ensure the production of finest quality goods at affordable prices. Our products are appreciated for their quality standards in national and international market. Quality is the factor, which we know would lead us to achieve and maintained a good reputation among our clients for quality standards of our products and stringent quality tests at each stage Of product development.
